Ambitious

About me

I'm a passionate web developer with a strong focus on crafting well-structured code and optimizing web performance. With a keen eye for detail and a commitment to delivering high-quality work, I strive to create efficient and elegant solutions that please my clients.

When I'm not trying to develop the next Facebook, I love spending time on the tennis court or going for a run in the forest. As a former elite athlete, I've always loved being active.

Work experience
